

**Training opportunity for Broward Early Childhood
Educators Conference 2010 Attendees Only**

Enjoy a Special Training with Suzanne Gellens

The training is based on the book, *Activities That Build the Young Child's Brain*, with the author Suzanne Gellens, M.S. Each conference attendee received this book at the conference.

Bring your Book with you to the training!

- Hear about the latest brain research
- Learn how to provide a brain compatible environment
- Explore how children acquire language and literacy skills
- Understand how to extend your current curriculum
- Discover techniques to help children gain critical thinking skills
- Learn how play facilitates all learning
- Participate in a variety of activities that build the young child's brain
- Understand why YOU are the important catalyst for young children to acquire knowledge.
- Participate in activities easily incorporated into your every day curriculum that promote brain compatible learning

This is an interactive workshop.

What Attendees Need to Bring to the Workshop:

- * The Book and sticky notes to mark pages
- * A toilet paper roll
- * Markers and scissors
- * A cracker or cereal box, wrapped in brown paper from a grocery bag
- * A picture cut out of a magazine.

3 hours of in-service will be issued for the training

Please register online for one (1) of the workshop sessions at:
