

2008 VPK Standards Training

This training is based on the most current early childhood research and is appropriate for all VPK instructors. The participants will be introduced to the *VPK Standards*, which are guidelines that describe what children should know and be able to do at the **end** of the VPK year.

Along with providing participants with an overview of the *VPK Standards*, this training will also provide: examples of developmentally appropriate instructional techniques for four-year-old children; ways to enhance the early learning environment; and information to assist teachers in continuing their investigation of a topic of interest

LAST STANDARDS TRAINING UNTIL UPDATED STANDARDS ARE READY
